

Saurabh Nagaich

Dot Net Software Developer

+91-9696780704 | saurabh.nagaich.in@gmail.com | Bhopal, INDIA | Experience: 3 Years | <https://saurabhnagaich.github.io/intelligent-portfolio/>

Profile summary

Results-driven Full Stack .NET Developer with 3 years of experience building scalable, secure, high-performance FinTech applications. Strong hands-on expertise in ASP.NET Core, C#, ASP.NET Web API, Entity Framework Core, SQL Server, Angular (v10—v18), and Microservices. Domain experience includes payment authorization, EMV, STIP, tokenization, and transaction processing. Skilled in integrating Apache Kafka and RabbitMQ for asynchronous workflows, optimizing SQL Server performance, and delivering production-ready solutions in Agile teams. Currently pursuing MBA in Data Science and Business Analytics.

Skills

ASP.NET Core

C#

ASP.NET Web API

Entity Framework Core

SQL Server

Angular

Microservices

RESTful APIs

Apache Kafka

RabbitMQ

Azure

Docker / Podman

JWT Authentication

LINQ

Git

Certifications

- IBM RAG and Agentic AI Specialization
- Microsoft Full-Stack Developer Professional Certificate
- KPMG Lean Six Sigma Green Belt
- Microsoft SQL Server Professional
- Microsoft Azure AI Fundamentals AI-900
- FinTech: Finance Industry Transformation and Regulation
- Full-Stack Integration

Work Experience

Dot Net Software Developer — CoreCard Software India Pvt. Ltd.

Jul 2023 - Present

- Developed and maintained enterprise-grade fintech applications using ASP.NET Core, C#, Angular, Entity Framework Core, SQL Server, and Microservices.
- Designed and implemented secure RESTful APIs for payment authorization and transaction processing systems.
- Worked extensively on **Authorization**, **STIP (Stand-In Processing)**, **EMV**, **Tokenization**, and transaction processing modules for card payment systems.
- Designed, developed, and maintained microservices for high-volume payment transaction processing ensuring scalability and fault tolerance.
- Integrated Apache Kafka and RabbitMQ for asynchronous messaging and event-driven communication.
- Contributed to production issue analysis, debugging, root cause analysis (RCA), and performance optimization for business-critical applications.
- Collaborated with cross-functional teams in an Agile/Scrum environment, participating in sprint planning, code reviews, and feature delivery.
- Worked with Azure-hosted environments for application deployment and support.
- Utilized Git, SVN, Postman, Visual Studio, SSMS, and JIRA for version control, API testing, database management, and Agile project tracking.

Internships

— Corcard Software Pvt. Ltd.

14 Months

- Worked in IT Infrastructure/Internship role focusing on support and development tasks within the payments domain.

- Assisted in troubleshooting, debugging, and resolving production and client issues.
- Gained hands-on exposure to SQL Server and development tools used for payment processing systems.

Projects

Enterprise Payment Authorization Platform

- Developed and enhanced enterprise payment authorization services for high-volume card transaction processing using ASP.NET Core, C#, Microservices, SQL Server, Apache Kafka, and RabbitMQ.
- Contributed to **Authorization, STIP, EMV, Tokenization** and transaction processing modules and designed RESTful APIs for secure payment workflows.
- Optimized SQL Server stored procedures and queries to improve transaction processing efficiency and performed RCA for production issues.

Token Provisioning & Encryption Services

- Implemented enhancements for token provisioning and encryption workflows in card payment systems using ASP.NET Core and Microservices.
- Built secure APIs for token management and worked on database design, stored procedures, and backend logic for token lifecycle management.

CareCredit Web Application

- Developed a full-stack credit management web application using Angular 18, ASP.NET Core 8, Entity Framework Core, SQL Server, and JWT authentication.
- Implemented JWT-based authentication and Role-Based Access Control (RBAC) and used Angular standalone components, lazy loading, reactive forms, and Angular Material for a responsive UI.
- Designed scalable backend architecture with middleware, validation, and exception handling.

Personal Portfolio Website

0 Months

- Designed and developed a personal portfolio website to showcase professional experience, technical skills, and projects, with links to GitHub repositories and contact information. Source: [Portfolio](#)

Education

MBA/PGDM | Data Science And Business Analytics
Shoolini University, Solan
Grade - 8.54/10

2026

B.Tech / B.E. | Electronics and Communication Engineering (ECE)
Rajiv Gandhi Proudyogiki Vishwavidyalaya, Bhopal
Grade - 8.99/10

2023

12th
Uttar Pradesh, Hindi
Marks - 77%

2019

10th
Uttar Pradesh, Hindi
Marks - 79%

2017

Extra-curricular activities

Web Designing Competition

Runner-Up in Web Designing at Banasalotsav-2022, demonstrating front-end design and implementation skills.

Key achievements

Achievements

Employee of the Month (Sept 2025)

Employee of the Month (July 2026)

Annual Excellence Award for Unmatched Dedication — 2025

Runner-Up - Web Designing — Banasalotsav-2022
